

## Baldwin Hills Scenic Overlook

Once exploited for its oil, Baldwin Hills Scenic Overlook has been transformed into a symbol of restoration and conservation. Take in breathtaking views, hike through restored native habitat, and enjoy a state of the art visitor center at this stunning new urban park.

### Help Beautify Your Park!

Participate in a volunteer day held by Generation Water and Mujeres de la Tierra, with partners: CA State Parks, CA State Parks Foundation, and Park Champions.

**Date:** Saturday February 18th, 2012

**Time:** 9am - 1pm

**Location:** Baldwin Hills - picnic tables mid-way up the hill

**Attire:** Sturdy shoes, a hat, long sleeves

### What we'll be doing:

Removing several pest plants from the park, and enhancing the areas they are removed from with native plants! There are projects for people with all levels of familiarity with plants, from novice to expert, and all levels of exertion, from sweaty to child-friendly. Gloves, water and snacks will be provided for all volunteers.

Come on out and enjoy the views, make some friends, and follow through on that resolution to do more in your community! Can't wait to see you there!
